RIOT AT THE POLLS.

Bloody Conflict Takes Place at Kansas City.

ONE HUNDRED SHOTS FIRED.

One Man Killed, Four Fatally Wounded and Two Others Badly Injured—The Conflict Was Between the American Protective Association and the Catholics. Names of the Dead and Wounded.

KANSAS CITY, April 4.—The A. P. A. and the Catholics came together in a bloody conflict at the polls in this city yesterday. It can not be stated which side is responsible for the affray, as the partisans of each loudly charged the other with being the full cause of all the trouble. More than 100 shots were exchanged between the combatants in less than that many seconds, and when the firing ceased the following named were lying dead, dying or injured on the pavement.

Mike Callahan, city sidewalk inspector, shot through the right side and instantly killed.

Harry Fowler, laborer, shot through the back; can not recover.

Con Brosnahan, contractor, shot through the kidneys; will die.

Jerry Pate, deputy constable, shot in the face; fatally.

Patrick Fleming, shot in the left shoulder.

John Gover, laborer, shot through the right arm.

The riot was the culmination of bitter feeling which had been manifested by action and words ever since the polls opened in the morning. The two antagonistic elements were solidly divided in their choice of candidates for mayor. The aggressive support that each side gave to its candidate during one of the hottest campaigns ever known in this city, engendered a strong sentiment of bigotry. It was therefore in no amiable mood that the workers of the respective factions came together at the different polling places throughout the city and that these workers came expecting trouble to occur before the day wore away, is apparent from the number of deadly weapons that were drawn when the first pistol shot was fired.

The riot that resulted so fatally was the climax of a series of smaller riots that took place at other points earlier in the day between the same opposing religious factions. This riot took place on the Southwest boulevard, in the Fifth ward, very close to police station No. 3, and those who took part in it had been heated to the fighting temper by reports that had been hourly arriving at the station of brawls at other polling places.

Only one hour before it was known that John Cooley, a stonemason, was shot in the back and forehead by William Henry Walker at a voting place at the corner of Fifth and Campbell streets, and that the row was directly due to a fiery debate between the two men regarding the principles of the A. P. A., to which Cooley was violently opposed. That Cooley was not instantly killed was due simply to the fact that the pistol used was a mere toy of 22 caliber.

The A. P. A., which supported Webster Davis, the Republican candidate for mayor, had their own workers at the different polling places and they distributed in some precincts their own tickets bearing their candidate's name and decorated with the American flag. Jim Pryor, a Fifth ward politician, antagonistic to the A. P. A., who supported Frank Johnson, the Labor and factional Democratic candidate, was active at the head of 50 constables which he got Justice Latshaw to appoint Monday night. It was said by some that these constables were, many of them, irresponsible characters and were solely the cause of all the trouble. Consequently there were loud threats of mobbing them before they got to headquarters after the bloody riot was over.

It is claimed that one of Pryor's followers fired the first shot. That one was Mike Callahan, and he was a dead man the next moment. Then the battle began. The deputy constables at this polling booth and the workers of all the political factions crowded together in a solid mass about 100 strong, and every one of them seemed to be armed. For a minute or two the discharge of weapons sounded like the discharge of musketry by a regiment. Hundreds of citizens gathered at every point of vantage to witness the battle, which, however, was of short duration. These onlookers trembled with excitement. Many of the residents along the boulevard added to the general feeling of terror by leaning from their windows, shouting and gesticulating wildly.

In less than five minutes from the time the first shot was fired, however, the blue coats from station No. 3 had appeared upon the scene and quieted the disturbance. With their first approach, the fighting political workers ceased hostilities and made a quick effort to hide their weapons.

Pryor's men are claiming that Callahan was an innocent victim. They assert that it was Jerry S. Pate, an A. P. A. man, who first shot, and that was the shot that killed Callahan. Pate was serving as a constable, having been appointed especially by a Westport official to serve a warrant for the arrest of Jim Pryor, John Pryor, his son, and Bert Pryor for an alleged felonious assault upon a citizen earlier in the day. Anyway, he and Callahan met, had some words and either one or the other fired the shot that commenced the conflict.

Pryor's side of the story gets some color from the fact that Harry Arthur, who is, however, one of Pryor's followers, says he himself is the man who shot Pate in the face. According to his story he was standing on the bridge that crosses O. K. creek, close to the scene of the riot when Jerry Pate and another

man came from the other end of the bridge in a buggy, with four men running behind him. When Pate reached the spot where Arthur was standing, he jumped out of his buggy with a gun in his hand and grabbing hold of Harry McGovern, he said: "Here's one of the men we are after. I've got a warrant for your arrest."

"I went up to Pate and said: 'You can't take him.'

"Jim Todd stepped out too and said: 'No, you can't take me either.'

"I'm a deputy constable and you've got to go," said Pate, and then, turning to the man in the buggy, said: "Read the warrant."

"Just then Mike Callahan came running toward us from the northern end of the bridge. He ran up to Pate and asked him what right he had to carry a pistol, and demanded to see his permit. The two men exchanged angry words, and then Pate aimed at Callahan and fired. Callahan returned the fire, and then I and the rest of us began to shoot. I shot Pate."

While the riot was in progress it is said that members of the A. P. A. telephoned to Armourdale and Argentine, strongholds of that order, for reinforcements for 1,000 men and that the assurance was given that the men would shortly be on the way. Members of the A. P. A. in this city and Armourdale deny the truth of this story.

About a dozen arrests have been made in connection with the rioting on the boulevard and the police are working on evidence which they have gathered from the men now under arrest, and it is probable that further arrests will be made. No further disturbance has occurred, and it is thought that there will be no further trouble.

Webster Davis, the straight Republican candidate for mayor, was elected by a good round majority over all other ticket carriers, carrying with him the entire Republican ticket.

Dispatches to the Associated Press from all over the state of Kansas and the territory of Oklahoma go to show that with but few exceptions where party lines were distinctly drawn, the Republicans elected their tickets.

SIMILAR RIOT IN CHICAGO.

A Number of People Shot and Several of Them May Die.

CHICAGO, April 4.—The election of an aldermanic ticket and two tickets in the field yesterday was attended by many brawls and disturbances. The ball opened with a free-for-all fight in the Twenty-third ward, in which several ward heelers and policemen were badly bruised. Later in the day the followers of John Coughlin, the aldermanic candidate in the First ward, fired on a bandwagon bearing the banner of Skakel, Independent Democratic candidate. A volley of pistol shots were fired, breaking windows and causing great excitement, but no one was hurt.

John Bell, a Coughlin heeler in the same ward, was shot twice in a saloon brawl by Louis Luther, a Skakel follower, and may die, and in the Fourteenth ward Samuel Phelps was shot at a polling place by John Marshall and may not recover. Few arrests were made.

The Republicans elected 23 aldermen, the Democrats 11. Seven Republicans succeeded Democrats, two Democrats succeeded Republicans.

In the town elections the Democrats carried the entire West Side ticket, and three out of four offices in the south town. The Republicans carry the north town by 5,000. Scanlan, the Democratic candidate for assessor of the west town, is elected by 8,000 plurality, about 5,000 more than the next highest successful candidate on the ticket. The Democratic majority in the south town is in all cases close, a few hundreds dividing the totals.

The proposition offered of annexing the towns of Evanston and Morgan Park to the city carried by over 20,000.

SLEW A PAIR OF BULLIES.

Albert Looker Promptly Acquitted of a Double Murder.

HAMMOND, Ind., April 4.—Albert Looker, who shot and instantly killed James Conroy and William Cleary, game warden on Tolleston Hunting and Fishing club's grounds in John Hargan's saloon, at Tolleston, March 21, has been acquitted by Judge Morlock of the city court. In discharging Looker the court said that from the evidence introduced he was led to believe that the two men came especially prepared to cane the body of somebody from the fact that they wore heavy brass knuckles under their gloves. Prosecutor W. B. McMahon of Crown Point, who conducted the case for the state, said that he believed the knuckles were put on after the men were killed and was greeted with hisses, which were only stopped when the judge threatened to clear the court.

After his discharge Looker was borne in triumph from the courtroom on the shoulders of six sturdy men and taken to a hotel, where he held a reception.

Prosecutor McMahon threatens to have Looker rearrested on a charge of murder, but no one here paid any attention to that. People throughout Lake county have expressed their opinions freely since the shooting, and generally came to the same conclusion: "That justice had been meted out to two of the most brutal bullies that ever disgraced Lake county."

This case has created considerable excitement, and many prominent people throughout the state send encouraging letters to Looker.

NEW YORK, April 4.—The Herald's San Jose (Costa Rica) dispatch says: Senhor Yglesias has been elected president of Costa Rica by a large majority. Two-thirds of the next congress will be of his party also.

A Verdict of Damages.

ELWOOD, Ind., April 4.—The McCloy Glass company was given \$45,000 damages against the Pennsylvania Railroad company for the burning of their factory. The railroad was refused a rehearing.

ONE MAN IN CONTROL.

Governor Tillman Assumes Sole Charge of the State.

AN OFFICIAL PROCLAMATION.

Notice Given That He Has Assumed Sole Control of All the Cities and Municipal Forces of the Entire State—A Congressional Investigation Will Probably Be Made of His Actions.

COLUMBIA, S. C., April 4.—Governor Tillman has issued a proclamation giving official notice to the municipal authorities of every city and incorporated town in the state and to the police marshals, that under the powers given him by Section 519 of the statutes he assumes sole control of the whole force of municipal police and marshals of the several cities and incorporated towns of the state.

They are ordered to enforce all laws on the statute books, together with all municipal ordinances and orders from municipal authorities not inconsistent with the purposes of this proclamation. As soon as the emergency shall no longer exist, the governor shall relinquish control and restore the former status.

Governor Tillman has received the following telegram from Clerk of Court W. H. Ingram at Sumter:

"J. J. Dargan met the northbound train yesterday and arrested Constable Cain on his way to Columbia in custody with McKnight, deputy sheriff. The citizens generally are not responsible for the arrest. The sheriff is keeping the parties at their own request. No danger threatening the constables and no occasion for action on your part."

Concerning this the governor said: "It might as well be understood once and for all that the constables are state officers and will continue to discharge their duties under my orders. No interference with them except by regular legal process will be tolerated, and they will every one appear at Darlington when called for by the civil authorities."

TILLMAN TO THE SOLDIERS.

He Thanks Those Who Stuck by Him and Sends Them Home.

COLUMBIA, S. C., April 4.—Governor Tillman addressed the militia here Tuesday in explanation of his position and the duty of the soldiery. Said the governor:

"The dispensary law is on the statute books. I, as chief executive, have sworn that the laws of this state shall be respected, and so help me God, I will exert every all the powers of my office to see that the law is obeyed."

The governor was severe in his condemnation of the militia companies that have refused to obey orders.

"Over at Darlington," he said, "these bandbox soldiers, these soldiers turned politicians, pranced all over the country and sent for reinforcements to barrooms and whisky men, but they have never fired a shot at a single constable and they did not want to find them. Why didn't they lynch the men they claimed made the trouble? They have slandered themselves by saying they would lynch those who did not cause the trouble and then would not lynch the man who they say did cause it. Body politic is in a fever because the people of Charleston and Columbia have taken vipers to their bosom in the shape of newspapers which daily distill poison. They try to sting me personally by abuse and slander, but I wear a coat of mail that they can never pierce—an honest heart looking to the welfare of the whole state."

The governor did not fear civil war. He said: "It will not come and can not come, because the people are in the saddle and intend to remain there. One man told Mr. Yellold here that he came from Edgefield, my own county, with a shotgun to kill me Friday night. I will not mention his name. Threatened men live long and I have never felt uneasy."

"My life is not worth much to me, but it is worth as much as that of any man to him, but rather than desert my post, where you have placed me, I would have stuck there until I had to go out as a corpse. The men that are threatening to fire this powder magazine are the bar-room element, and those who are urging the men are the rulers of the old oligarchy. This riot is political frenzy. I shall not budge an inch from the stand that I have taken as the people's governor. You may imagine from this that I aggravated the trouble, but I am simply going to uphold the law. I could not have done what I have unless I controlled the railroads and the telegraph lines. The revised statutes of the state give me still another sword of Damocles, and tomorrow I shall cut the thread and use it. Section 519 gives the governor power to take control of all the police in the city. The mayor and the city councils have refused to make the police do their duty. I intend to see that they do or I will discharge every one of them. From this day the constables shall watch the policemen and report to me whether they are doing their duty, and if they do not obey my orders and if the authorities don't cooperate with me I shall call the legislature together and we will have the power given the executive to remove those men and appoint others who will obey the law."

At this point Mr. Early, a cousin of Mr. Norment, who was killed by state constables, yelled out, "Why don't you obey the law yourself?" This created a big commotion in the crowd. One of the governor's sympathizers yelled out, "Shoot him," and both factions rushed up. The governor called for silence and Chief of Police Radcliffe jumped off his horse and grabbed Early, commanding order, and took him away.

The governor continuing said that those who are opposing him must submit, adding: "I have thousands of good men who are ready to respond and those who are in rebellion and resistance must get out of the way, for the engine is on the track. I have got the throttle and I am going in on time, so help me God."

An order was then read to the troops commanding them to return to their homes and extending thanks to the gallant and patriotic soldiers and citizens who at a moment's notice dropped their various avocations and pursuits to respond to his call.

CONGRESSIONAL INVESTIGATION.

A Committee May Inquire Into Governor Tillman's Actions.

WASHINGTON, April 4.—Mr. Grosvenor, Governor of Ohio, late yesterday evening, introduced in the house a resolution calling for a special investigation of Governor Tillman's action in South Carolina in seizing railroad property and telegraph lines engaged in interstate commerce, and with armed force and violence establishing censorship of the daily and weekly press of the country, and prohibiting the transmission of news dispatched to the newspapers.

The resolution directs the committee on interstate and foreign commerce to inquire by what law or authority such acts have been committed, and whether the laws of the United States have been violated. In his remarks on the resolution, Mr. Grosvenor said this was the first time in the history of the government that such a censorship of press dispatches had been established.

The resolution was referred to the house committee on interstate and foreign commerce, of which Representative Wise of Virginia is chairman. The latter says the resolution will probably be considered at the next meeting of the committee. Mr. Wise said: "The transmission of news and other telegraphic information from one state to another appears to be clearly within the rights of federal supervision. The action of Governor Tillman is certainly remarkable, and it is important that his action be inquired into."

Representative McLaurin of South Carolina telegraphed Governor Tillman, giving the general features of the Grosvenor resolution.

AN ANTI-LIQUOR WAR.

Greenwood Is in Arms Against Two "Quart" Houses.

GREENWOOD, Ind., April 4.—This town is a unit against two saloons which have recently been established here. There have been no saloons here for years until John Arbuckle, with a government license, opened a "quart" house not long ago. He was followed by another man, who opened a government place. The county commissioners have declined to license saloons. The town authorities are opposed to the liquor traffic, and the citizens have taken steps to rid the community of these establishments at any cost.

A secret committee of 10 is to be appointed by the chairman to adopt means that are not to be disclosed until everything is ready for action, to get rid of the liquor places. Representations were made, showing how the morals of the community had already been affected by the two "quart" houses. The sentiment of the community is shown by the fact that a barkeeper imported from Indianapolis by one of the saloonkeepers could not find a boardinghouse in the town and was obliged to go to the country.

FIGHTING STILL GOING ON.

Indians and Cowboys Killing Each Other Off.

KANSAS CITY, April 4.—A special to The Times from El Reno, I. T., just received states that the troop of cavalry sent out to quell the fighting going on between the Indians and cowboys has sent a courier back to the fort for reinforcements. It is reported that another battle has occurred and that several men on both sides were killed and wounded.

The rumor to the effect that the agency buildings have been burned by the Indians is corroborated. The scene of the fighting is so remote that particulars are obtainable at this time. It is feared that great loss of life will be caused before reinforcements can reach the troops now at the front.

Eight Persons Severely Injured.

PROVIDENCE, April 4.—Fire broke out in a barber shop under the hall in which a dramatic performance was being given last night by the Young People's society of St. Mary's Catholic church at Olneyville. Panic seized the audience as the hall filled with smoke and eight persons were severely injured by being trampled under foot. Mrs. Kennedy was so badly hurt that it is feared she can not live, and an unknown woman had her back broken. The fire was quickly extinguished.

Returned to Work.

ANDERSON, Ind., April 4.—Four hundred men and boys returned to work at the Lippincott lamp-chimney works at Alexandria yesterday. They walked out a week ago because of the refusal of employment to a young fellow named Copelin, who had been discharged recently. Mr. Lippincott appealed to the president of the union. He sustained Lippincott, erased Copelin's name from the union's book, and reprimanded his supporters.

Behring Sea Papers Sent to Congress.

WASHINGTON, April 4.—The president yesterday sent to congress a voluminous mass of papers relating to the Behring sea arbitration of last year. They comprise the final report of Mr. Foster, agent for the United States; all but one of the protocols upon which the findings were based, the award of the tribunal of arbitration; declarations made by the tribunal of arbitration and referred to the governments of the United States and Great Britain for their consideration, and the opinions of Justice Harlan and Senator Morgan.

MR. B. G. BOYLE, until recently of the Danville Advocate, will shortly be connected with The Louisville Evening Post. Mr. Boyle ranks among the best newspaper men in the State, and the Post is to be congratulated on securing his services.

"ABOUT half the Democratic voters attended the polls to-day," "the Republicans voted their full force" and similar expressions in the returns from Monday's election in Ohio furnish the key to the explanation of the Republican victory. The wires will tell a different tale from that of Monday when the Demmies turn out with their old-time vigor.

THE Philadelphia Record says: "The Ohio idea usually marches upon Washington in an intangible form. Greenbackery and McKinleyism are two specimens of Buckeye fads and fancies which wrought infinite mischief and are still potent for further evil. But Coxey is the first Ohio statesman who has attempted to make his evangelism a personal matter and overawes Congress by a show of force. Coxey, at least, has the courage of his lunacy."

THE Daily America of New York is, we believe, considered the organ of Tammany. Against the report that Senator Hill has retired to Bleak House, his Albany home, to prepare a speech against the tariff bill, the editor says:

We do not believe it. We believe the Senator has been misrepresented. "Bleak House" will be the appropriate shelter for the Democratic Senator who betrays his party at this critical juncture in history. Senator Hill may prepare as many speeches against the tariff bill as he sees fit, but the moment he delivers one in the Senate of the United States his name in politics will be Dennis, not David.

Coming from the organ of Tammany this is rather significant, and Senator Hill no doubt understands fully its meaning. He may oppose the income tax clause of the tariff bill, but we venture the prediction he will vote for the measure in the end.

THEY ARE FOR TARIFF REFORM.

"There is a significance," says the Kansas City Times, "in the reply of the citizens of Tell City, Ind., to a McKinley interlocutor that distance cannot blunt or partisanship distort out of its meaning. The inhabitants of that town are either manufacturers, workingmen or merchants, all independent and most of them of Swiss descent. Formerly they voted the Republican ticket to a man. Recently a poll was taken of the town, and, notwithstanding the depression and general unrest which have been stimulated to the fullest extent by the Republican calamity howlers, the invariable answer was that protection had done nothing to raise wages or maintain them, and that public faith in the principles of tariff reform had suffered no change since its memorable expression at the polls in 1890 and 1892."

Not a Candidate.

MAYSVILLE, KY., April 3.—(Special)—Rolla K. Hart, of Fleming County, will not have a walk-over for the Democratic nomination for Congress in this, the Ninth district. W. W. Ball, the assistant cashier of the First National Bank, of this city, will be his opponent.

Mr. Ball was asked in regard to the above, this morning. "I have not lost my mind," he replied. "I am not a candidate. Of course, if the nomination should be tendered me, I would esteem it a great honor and couldn't very well decline it."

SEALED proposals are wanted for building a dwelling house at Sardis. See advertisement of Mr. G. W. Stiles.

HUSBAND AND WIFE.

Their Property Rights Under the New Law, Which Will Go Into Effect June 13th.

The new law regulating the property rights of husband and wife will go into effect June 13th. Mrs. Josephine K. Henry, of the Kentucky Equal Rights Association, has published a summary of the rights of married women under the new order of things, as follows:

First—A married woman is absolute owner of her own wages or earnings, and if a husband shall collect a wife's wages without a written order from the wife, the employer of the wife will have the pleasure of paying a second time the wages to the woman who earned them.

Second—A married woman has complete control of her real estate.

She has the power and right to rent out her real estate, and collect, receive and recover in her own name the rents thereof, and make contracts for the improvement thereof.

Third—A married woman is absolutely owner of all her personal property, and such property is in no way subject to the debts of her husband.

Fourth—Courtesy and dower is equalized, husband and wife each having an equal interest on the death of either in the estate of each other, one-third life estate in all reality, one-third of personality absolutely if there is issue, or one-half of personality absolutely if there is no issue.

Fifth—A married woman, if she be of sound mind and twenty-one years of age, may dispose of her estate by last will and testament.

The new law thus constitutes a married woman a femme sole, without having to resort to legal proceedings which are regarded both humiliating and expensive.

Seventh District Revenue.

Collector Shelby reports the following collections of internal revenue in this district for March:

Lists	\$ 304.72
Beer	64.75
Spirits	271,930.60
Cigars	889.65
Tobacco	1,029.90
Special taxes	276.29
Total	\$274,495.91

Gain over February, 1894, \$32,370.25. Total collections since Collector Shelby took charge of office, \$1,138,227.35.

The large increase for March is an indication that the whisky business is picking up throughout the State. Other districts also show a large increase for March. The collections for March in this district are as large as for any previous month in the history of the district.

River News.

West Virginia has 16,000 square miles of coal fields, an area greater than the coal region of Great Britain.

The elegant new City of Louisville made her maiden trip Monday. The machinery worked smoothly, and she is a success. Captain Brennan will have command.

The Cincinnati Enquirer thus pays a deserved compliment to a Maysvillian: "Engineer Henry McClanahan is to be congratulated on the successful completion of the fine machinery on the City of Louisville. He has been aboard since the first piece was placed, and has had a long strain of hard work. Mr. Frisbie found a valuable aid in him from the start."

Who Knows Where These Parties Are Living?

John Whitaker, of Rusk, Surrey County, North Carolina, wants the address of his uncle, James Bowen. He writes that Bowen lived "near Chester P. O. about eight years ago."

John A. Finnell, of Indianapolis, writes for the address of Louis C. Garrigus, and says Garrigus once lived in Maysville and held a county office. Mr. Finnell is undoubtedly mistaken in part of his statement. According to the BULLETIN's best information no person named Garrigus ever held office in this county.

MASON COUNTY VERSUS DEGMAN.

What the Superior Court Says in Affirming the Judgment of the Circuit Court.

In affirming the case of Mason County against Degman, the Superior Court says:

When county obligated itself to pay a turnpike company a certain sum per mile for the building of its road, and after the road was built the county, upon report of commissioners that the road was two miles and four rods long, paid over to the appellant, as President of the road, the amount due upon that basis, if appellant knew that the road was in fact only one and three-fourths miles long his demanding and receiving of the county pay for two miles and four rods, even though technically based upon the report of the commissioners, should be treated as a fraudulent representation, and he is liable to the county for the amount paid him in excess of what was due upon the actual length of the road. And it is immaterial whether or not he derived benefit.

DEADLOCK BROKEN.

The Joy-O'Neill Election Contest Finally Disposed Of.

WASHINGTON, April 4.—The deadlock which has prevailed in the house for the week past over the Joy-O'Neill contested election case was broken yesterday. The Republicans refused to answer their names, but the Democrats rallied a bare quorum, 167, and amid some applause the speaker announced that the deadlock had been broken and that the motion to lay on the table the motion to reconsider the vote by which Joy had been declared not entitled to the seat had been carried.

The last vote was taken on the following:

RESOLVED, That John J. O'Neill was elected a representative to the Fifty-third congress from the Eleventh congressional district of Missouri, and that he is entitled to his seat.

The resolution was adopted—155 to 23. There was some Democratic applause upon the announcement, and by direction of the speaker, Mr. O'Neill, who was in the hall, came forward to the bar of the house and was sworn in.

According to the terms of the special order the house then immediately proceeded with the consideration of the English-Hilborn case, two hours being allowed for debate.

When a vote was taken the Democrats failed to have a quorum and the house adjourned.

In the Senate.

WASHINGTON, April 4.—The general public did not seem to have as much interest in the senate yesterday as Monday and the attendance did not indicate that the second day of the tariff debate was to excite as much interest as the first.

Senator Mitchell of Oregon presented a resolution which was agreed to, directing the secretary of the interior to transmit to the senate a list of all public lands located in odd sections in the states of Oregon and Washington.

Senator Pettigrew of South Dakota introduced a resolution which was agreed to, directing the secretary of agriculture to reply within three days to the resolution passed by the senate about six weeks ago, calling for statistics as to wheat production.

The bill reported by Senator Morgan to give effect to the award of the Paris tribunal on the Behring sea question was passed.

Senator Harris gave notice that hereafter he would each day immediately after the transaction of the routine morning business ask that the tariff bill be considered.

At 2 o'clock the tariff bill was taken up, and Senator Allison spoke on the subject until adjournment.

COXEY IN PITTSBURG.

The Commonwealth Army Goes into Camp For Two Days.

PITTSBURG, April 4.—The commonwealth army has arrived. It reached lower Allegheny at 1 o'clock and was met with bands by the Iron Moulders' union, patternmakers, boilermakers, bakers and other labor organizations and a large concourse of people. When the city line was reached a halt was taken for lunch and at 2:30 o'clock the army marched to Exposition park, where it went into camp for two days.

Long before the arrival of the commonwealth, the streets in the vicinity of Woods' Run were packed with people. Director Murphy of the department of public safety became alarmed as the crowd was wrought up to a high tension of excitement, and refused to allow the army to come into the city by that route. A change was then made, and Coxey and his followers marched in over the Brighton road.

While Superintendent of Police O'Mara does not anticipate the slightest trouble from Coxey and his cohorts during their stay here, he has made preparations to stop any trouble, if it is found necessary.

It was ascertained that Coxey and a large number of his followers have decided to take a trip through the southern states as soon as his mission in Washington is fulfilled. The decision was arrived at a day or so ago, and the trip will be made with a view of converting as many southern people as possible to the ideas advanced by Coxey.

As at present figured out by Coxey, it will require the best part of the two months for his army to get to Washington and see the Coxey measures acted upon by congress. Then the army, or as much of it as remains intact, will make a trip through Virginia, North Carolina and South Carolina, being joined in the latter state by Frye's band of Texas Coxeyites. The scheme is to win the southern farmers over to the Coxey-Browne-Smith ideas. When this is completed the task of the reformers will be fulfilled and the army will disband.

British Ships for Behring.

WASHINGTON, April 4.—The British fleet on the north Pacific station is small, comprising but six vessels, and therefore could scarcely furnish a proper force for the Behring sea patrol. On the other side of the Pacific, on the Asiatic station, however, the British have a strong fleet of 21 vessels, some of which will doubtless be called into the Behring service when the agreement is ratified. The list of vessels is as follows: Imperienz, armored cruiser, 8,400 tons; Alverity, part protected, 1,700 tons; Leander, part protected, 4,300 tons; Carolina, part protected, 1,420 tons; Archer, 1,770 tons; Porpoise, 1,770 tons; Pigmy, 755 tons; Plover, 755 tons; Peacock, 755 tons; Severn, 4,050 tons; Penguin, 1,130 tons; Swift, 756 tons; Linnet, 156 tons; Daphne, 1,140 tons; Red Pole, 805 tons; Rattler, 715 tons; Firebrand, 455 tons; Esk 368 tons; Egeria, 940 tons.

warehouse Burned.

LONDON, April 4.—Warehouse No. 9, at London docks, burned yesterday. It was stored with wool, spices and coffee. The origin of the fire is ascribed to the explosion of an infernal machine. In the basement of the warehouse was stored quicksilver valued at £900,000, belonging to the Rothschilds. It was uninsured.
